

Italy's Untold Excellences: The Mission of ItalyUntold

**Seminar during the National Italian American Foundation (NIAF) 47^o Anniversary Gala
Saturday, October 29, 2022
Omni Shoreham Hotel, Washington DC, USA**

ITALYUNTOLD
ITALY BEYOND PERCEPTION

Introduction to the event (11.15 a.m.-12.30 p.m.)

Italy is a very well-known Country in the world. But for what? For its beauty, its art, its fashion, and food. No question about that.

However, too few people know that Italy is the second largest manufacturing Country of Europe; that Italy has one of the most advanced robotics, aerospace, and shipbuilding industries in the World, etc.

That's why the Think Tank ItalyUntold, was created. This session will talk about some **Italian excellences**, by involving speakers working in those sectors, which make Italy a Country much more advanced and **better than it is commonly perceived: an Italy beyond perception.**

ITALYUNTOLD
ITALY BEYOND PERCEPTION
